

Important Notice

RIVERSIDE PARK

MOUNT UNION BOROUGH

Walking trail improvements and tree trimming and removal have been initiated in Mount Union Borough's Riverside Park.

Due to these ongoing activities and because of a need for heavy vehicle access through Riverside Park during planned environmental clean-up and remediation of a site along the Juniata River adjacent to the park that will begin within the next two weeks, Mount Union Borough has imposed the following use and access restrictions at Riverside Park to ensure public safety.

- Riverside Park is now closed to all recreational uses and access, including hiking and fishing, from Monday through and including Friday. Reservations will not be accepted for any park usage on weekdays.
- Riverside Park will be open for all permitted recreational uses and access only on Saturdays and Sundays, unless weekend clean-up and remediation work is occurring. Reservations may be accepted for park usage on weekend days only.
- Vehicles are not permitted within Riverside Park at any time.
- All restrictions will remain in effect until further notice.

The borough regrets the above actions are necessary and apologizes for any confusion and/or inconvenience caused by them. However, they are essential to protect park users and to enable both activities to be completed as quickly as possible and with the least disruption.

Public patience, cooperation and understanding will be greatly appreciated. The temporary inconvenience caused by these activities is unavoidable, but will yield a long-term benefit to Riverside Park through the widening, leveling and improvement of the walking trail.

Contact the borough office by telephone at 814-542-4051 during normal business hours to make reservations for weekend use of Riverside Park or if you have any questions concerning the above restrictions.
