

DEMOLITION GUIDELINES AND CHECKLIST

by

Guardian Inspection Services, Inc.

1. Has the contractor or individual filed the permit application?
Have they paid the proper fee?
2. Has the contractor or individual provided the proper insurance information?
3. Has the contractor or individual filed an Asbestos Abatement form? Is one needed?
4. Has the contractor or individual notified all adjoining neighbors of the demolition project at least one week in advance?
5. Has the Pennsylvania One Call before you dig been contacted?
6. Has the contractor or individual disconnected and capped all service utility connections and lines in accordance to the local jurisdiction requirements?
Please notify this office when you disconnect or cap any sewer or water line so an inspector can be sent out to verify the work has been properly completed. Be aware that the inspection approval must be granted prior to backfilling.
7. Has the contractor or individual been notified that they are responsible for public safety?
8. Has the contractor or individual been notified that they are responsible to fill and maintain to the existing grade and so that no water may accumulate?
9. Does the contractor or individual agree to dispose of all waste materials in an approved and accepted manner? What plans are in place for waste disposal?

Date: _____
