# Audit Findings

## Audit Narrative

*The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.*

The Huntingdon County Prison PREA onsite audit was scheduled for November 12-13, 2019. Prior to the onsite audit visit, the required audit notices were sent to the facility to be posted for six weeks prior to the onsite visit. These notices were posted, and photographs were taken and sent to this Auditor as verification of the posting.

Information was provided via email to this Auditor for review and the pre-audit questionnaire was also provided.

On the first day of the onsite audit, an introduction meeting was held with administrative staff to review the agenda and answer any questions the staff had. Due to the size of the facility and the staff, this onsite audit was scheduled for no more than (2) days. At the initial meeting, it was noted that there were (44) inmates in-house and (52) inmates being housed out of county.

According to the PREA Auditor's Handbook, the population of the facility required that a minimum of (10) inmate interviews were to be conducted, with (5) of those in targeted areas and (5) random. After review of the inmate roster and discussions with staff, it was determined that only (2) inmates fit into those targeted categories. Ten total inmate interviews were conducted with (8) being randomly selected and (2) inmates fitting into the targeted categories.

In addition to the (10) inmates interviewed, there were (10) staff members interviewed. These interviews included the Warden, PREA Coordinator, Control Room staff, Maintenance, and randomly selected staff. Staff from all shifts were interviewed by this Auditor. Additionally, the facility's nurse was interviewed, and the contracted mental health professional was interviewed.

After the initial meeting, the tour of the facility was conducted. This facility is small with areas serving multiple purposes. During the tour of the facility, this Auditor was able to ask questions of staff members and of inmates. The phone system was tested to ensure that the reporting hotline was in working order. This initially was not working. The PREA Coordinator immediately contacted the service provider and the system was back up and working by the second day of the onsite audit. The Coordinator also forwarded all correspondence with the service provider to this Auditor as verification of the work done.

After the tour, interviews began. All were conducted at the facility. In between interviews, documentation was reviewed. These documents included PREA investigations, inmate files and training information for staff. Other employee documents had to be reviewed at the Huntingdon County Courthouse Annex.

The onsite audit concluded with a meeting with the PREA Coordinator and PREA Compliance Manager to review the information of the onsite audit and several items which would need additional information or correction.

## Facility Characteristics

*The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.*

Huntingdon County Prison is a small jail located in central Pennsylvania. This facility was built in 1978. It is a two-story facility designed to house both sentenced and inmates and inmates who are awaiting trial. It is the policy of the Huntingdon County Prison that inmates may be housed in the facility for up to five years.

The facility was built to house up to (48) inmates in (25) cells. The entrance to the facility is located on Church Street and opens to the upper level of the facility. This level houses a lobby and waiting area, visitor's room, an attorney's conference room, Warden's office, holding cells, a medical examination area and the vehicle sallyport. Additionally, there are (15) inmate cells, a control center and the booking area. These cells all open directly out onto a central multipurpose area.

The lower level of the facility includes the work release cell block, kitchen, boiler room, storage area and access to the exercise yard.

This facility only houses male inmates. All female offenders who are to be incarcerated are sent to a neighboring correctional facility. The same is true for all youthful inmates, or those under the age of (18). The facility cannot house these individuals and have them separated by both sight and sound from the adults in the facility.

As noted earlier in this report, the facility can house between (45-50) male inmates and on the first day of the PREA audit, there were more inmates housed out of county than there were housed in county at the facility. Through interviews with administrative staff, this is a common occurrence for the facility.

The contracted facilities in Centre and Mifflin Counties are (35) and (30) miles away from HCP

respectfully. York County Prison is approximately (115) miles from HCP. These distances are all one-way figures.

Huntingdon County Prison started out with a total of (4) cameras in the facility. At the time of the onsite PREA audit, the facility had (36) cameras throughout and around the facility.

As the facility sits within the borough limits, the Huntingdon Boro Police will do any criminal investigations for acts occurring within the facility, including those of sexual abuse or harassment.

If there is an allegation of sexual abuse, the facility will take the alleged victim to the hospital in Huntingdon for the forensic examination. The hospital was in a merger at the time of the audit and will be transitioning to Penn Highlands Healthcare.

## Summary of Audit Findings

- Does the written policy outline the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment?  Yes  No

#### 115.11 (b)

- Has the agency employed or designated an agency-wide PREA Coordinator?  Yes  No
- Is the PREA Coordinator position in the upper-level of the agency hierarchy?  Yes  No
- Does the PREA Coordinator have sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities?  Yes  No

#### 115.11 (c)

- If this agency operates more than one facility, has each facility designated a PREA compliance manager? (N/A if agency operates only one facility.)  Yes  No  NA

#### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

## Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

The Huntingdon County Prison has exceeded standard 115.11 of the PREA standards. This standard requires that stand alone correctional facilities need only to appoint a PREA Coordinator. There is no requirement to also utilize a PREA Compliance Manager.

Huntingdon County Prison, while a small stand-alone correctional facility, has both a PREA Coordinator and a PREA Compliance Manager.

The facility has one Lieutenant who serves as the agency wide PREA Coordinator and one Lieutenant that serves as the facility PREA Compliance Manager. These two officers typically work on different shifts. This is beneficial to the facility because both of these shifts are covered with someone that is very familiar with the PREA policies of the agency and facility.

As these individuals both hold the position of Lieutenant, they do have the authority to make decisions when it comes to issues related to PREA.

## Standard 115.12: Contracting with other entities for the confinement of inmates

### All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

#### 115.12 (a)

- If this agency is public and it contracts for the confinement of its inmates with private agencies or other entities including other government agencies, has the agency included the entity's obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.)  Yes  No  NA

#### 115.12 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates OR the response to 115.12(a)-1 is "NO".)  Yes  No  NA

## Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

## Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Huntingdon County Prison, due to the small size and construction of the building, contracts with other correctional facilities to house inmates. HCP does not house any youthful inmates at the facility as it is unable to separate youthful inmates from adult inmates by either sight or sound.

Additionally, there is no way to house female inmates at the facility and keep them separated from the male inmates.

The county contracts with both the Centre County Correctional Facility and the Mifflin County Jail to house female inmates and any overflow of male inmates. As this facility is very small with less than (50) beds, it is a frequent occurrence that the facility sends inmates to the other facilities. Initially, the facility did not have copies of compliance verification for these facilities. That was obtained later and provided to this Auditor.

One item to note in the contracts with Centre County Correctional Facility and Mifflin County Jail was that there was no mention of PREA compliance in these contracts. As these are long standing agreements, it is recommended that the facility includes language requiring the facilities to maintain PREA compliance and a method for HCP to monitor compliance in the years when the facilities do not have official PREA audits conducted.

The PREA Coordinator indicated to this Auditor that the facility contracts with the York County Prison for housing youthful inmates. This contract was reviewed and effective from September 4, 2019 through September 4, 2022. This contract does have PREA language included. The York County Prison has been audited and is found compliant with all PREA Standards.

### **Instructions for Overall Compliance Determination Narrative**

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Huntingdon County Prison had developed a staffing plan. This was provided to this Auditor for review. This staffing plan has all positions, shifts and relief factor included. However, it did not include all items the PREA standard outlines for inclusion in this plan.

The agency was required to revise the current staffing plan, ensuring all (11) items were included in this revision. In addition, the staffing plan should be reviewed by the facility's PCM to ensure that all PREA issues are taken into consideration.

In addition, the agency wide PREA Coordinator was required to review and provide input into the staffing plan. The PREA Coordinator is required to be one of the signatories on the final approved staffing plan. The plan must be reviewed and/or updated each year. The plan that was provided to this Auditor was dated one year and ten months prior to the onsite audit.

The PREA Coordinator, Deputy Warden and this Auditor held a conference call to discuss the staffing plan. Examples of approved staffing plans were provided to the staff and information discussed.

The PREA Coordinator revised the staffing plan initially provided and included all (11) elements required by this standard. Upon review of this revised plan, it was determined that it meets this standard is very clear and easy to read. The staff did a very good job including the required elements in the plan.

The staff do conduct unannounced PREA rounds on all shifts and in all areas in which inmates have access to and documenting those rounds appropriately.

The facility has provided training to staff members regarding how to appropriately search inmates at the facility. All corrections staff at the facility are male. The only staff member that is female is the nurse who works dayshift Monday through Friday. If she is in the building when a female is brought in for booking, she will take the female to the restroom and do a pat search. If the nurse is not in the building, the female is placed by herself in the holding room and stays there until she is transported out to another facility.

If there would be a situation where the male staff members would need to conduct a search of a female inmate, policy directs that this should be documented.

Additionally, the facility's policy includes information about working with transgender and intersex individuals at the facility. However, the PREA Coordinator did indicate that to his knowledge, there has not been a transgender or intersex individual housed in the facility.

During the tour of the facility, it was noted that the reporting information posters hung in the facility are provided in both English and Spanish. If an inmate coming into the facility speaks and reads Spanish, there are also brochures available in both. If there was a need for an interpreter, the staff would work with a local university to obtain assistance. Through interviews with all staff members, it was noted that none could recall having any inmates in the facility which could not speak English.

When staff were interviewed regarding the use of interpreters, all indicated that they would not use another inmate to interpret unless it was an absolute emergency.

PREA information is provided to all male inmates who are processed into the facility both in written and verbal formats. When the individual comes into the facility, the booking officer will read them information from a laminated card regarding the reporting information and basic information about what PREA is. By reading this information to the inmate, the staff can verify that they understand what they have been told and if not, will have the opportunity to provide further explanation.

According to the Warden and PREA Coordinator, applications for employment at the jail would go through the human resources office for the county. During the onsite audit, the employee files were reviewed at that office in the courthouse annex.

The prison has a very tenured staff. This is due to the high wages that are paid to corrections officers at the prison. The vast majority of the staff have worked there for 10 years or more. Therefore, it was difficult to find some information when reviewing the personnel files.

All employees had an initial background check completed. Then, depending on the year they were hired, that employee may not have had another one completed until approximately 2014. Through discussions with the PREA Coordinator and the staff at the courthouse, it was determined that the background checks were conducted for all employees in 2014 and will be

conducted every five years from that point on utilizing the employee's anniversary date.

In addition, all volunteers and contractors coming into the facility will be required to submit to a yearly background check according to the PREA policy and interviews with the administrative staff.

Applications for employment include a statement informing the applicant that if any information is false, it will result in termination. And if the applicant indicates they have worked at another correctional facility, the HCP will contact that facility to inquire about any instances of sexual abuse related to the applicant.

The facility has a PREA policy established that directs how PREA allegations are to be handled. The facility has (3) staff members trained to conduct the administrative investigations in the facility.

If the staff believe the allegation may be criminal, the facility has an agreement with the Huntingdon Boro Police Department to conduct the criminal investigation. The facility works together with the police officers.

The PREA Policy does provide information that if a victim makes a report within (72) hours of the sexual abuse occurring, they are to be taken to the local hospital, Penn Highlands Huntingdon Hospital for the forensic medical examination and will be performed by a SAFE or SANE nurse.

In addition, Huntingdon County Prison has worked to establish a relationship with the local rape crisis center, The Abuse Network. The Abuse Network staff were not available during the onsite audit visit; however, this Auditor was able to speak with an advocate on the phone after the visit. The advocate did confirm that their services are provided to inmates that are taken to the local hospital, Penn Highlands Huntingdon Hospital. Huntingdon County Prison provides training for all employees who work in the facility. When a new employee is hired, that new employee is required to watch PREA videos and sign off that they have received the training and understand it. Staff are also required to participate in a yearly training related to PREA.

Additionally, the PREA Coordinator participates or watches all "PREA In Focus" webinars produced by the PREA Resource Center. He will then print off the "one pager" produced to accompany the webinar and keeps that in a binder. All staff are required to review information and sign that they have done so.

The PREA Compliance Manager is responsible for ensuring that all staff have participated in all required training at the facility as he is also the Training Officer for the facility.

In addition to the training provided in house, all corrections officers are required to attend an academy. The facility will try to enroll any new staff in the Training Academy held by the PA Department of Corrections. If that is not available in a timely manner, they will contact Centre and/or Cambria County facilities to determine if there is any availability in those academies. They try to have new employees participate in an academy within six months of being hired.

Interviews with staff members provided clear information regarding the PREA training they are required to participate in. All staff members interviewed were consistent in providing information regarding information covered in the training they have participated in. All were able to discuss the cross gender pat search training they were required to participate in.

Inmate education is required for all inmates that are housed in the HCP. As mentioned earlier in this report, all individuals who are booked into the facility are read information regarding PREA and asked if they understand the information provided to them.

Once the inmate has been booked into the facility, and usually within the first week, the inmate will watch the PREA video and sign off on a pink paper that they have received and understand the PREA information and reporting mechanism. This paper is kept in the inmate's file.

Because there is such a large number of inmates that are housed out of county, there are also signature lines on the "PREA Inmate Education Verification Form" for inmates to sign when

they return to HCP and receive the training.

All inmate files reviewed during the onsite audit visit included this training documentation. During individual interviews, inmates were able to discuss the education they received.

These three staff members participated in a three-day Specialized Investigations Training provided at the PA Department of Corrections (PADOC) Training Academy. This training was developed by the Moss Group and is provided by PADOC staff who have been trained as trainers of the curriculum.

The Huntingdon County Prison employs one full time nurse and contracts with Mainstream Counseling Services for one part time mental health staff. The facility also contracts with a physician for part time and on-call services.

The nurse and mental health professional were both interviewed as part of this audit. Initially, the nurse was not able to recall participating in any specialized training. However, she did come back to this Auditor with information verifying that she did indeed participate in an online specialized medical training. This online training is provided by the National Institute of Corrections (NIC).

The interview with the mental health professional contracted for services at HCP also verified that she has taken the specialized training for mental health professionals online provide through NIC.

Both indicated they participate in some type of PREA training on a yearly basis.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Huntingdon County Prison conducts risk assessments for inmates incarcerated at the facility. The initial assessment is conducted during the booking process. This occurs within a couple of hours of the individual arriving at the facility.

This assessment was reviewed by this Auditor and it was determined that all required questions have been included. This initial assessment is completed on orange paper and is kept in the inmate's file. The (30) day assessment is done on a blue paper form.

Upon reviewing the inmate files, it was determined that there were inmates who had been at the facility for more than (30) days but did not have the required (30) day assessment on the blue form.

To become compliant with this standard, the facility was required to provide information outlining the process put into place to ensure the (30) day assessments are completed within the required timeframe.

The PREA Coordinator or the PREA Compliance Manager will sign off on all assessments to ensure that they are completed in the correct timeframe. He will monitor the assessment file for timely administration of the re-assessment. This checks and balance system is a best practice to ensure that these assessments are done as required.

The facility utilizes the information obtained through the risk assessments primarily for determining housing placements for the inmates. When interviewing the PREA Coordinator, the uses of the results of the risk assessment were discussed.

The facility has some cleaning positions in the facility to keep the common areas clean. He does use the risk assessment to ensure that inmates who have jobs in the facility are reviewed to ensure that there are not potential abusers together with potential victims.

The facility provides limited programming to the inmates housed there. The PREA Coordinator indicated that due to the small size of the inmate population, it is relatively easy for the staff to monitor the activities of the inmates.

The facility does not provide education to the inmates.

Through interviews conducted with staff at different levels, it was evident that the facility staff work not to place an inmate in involuntary protective custody unless necessary. The facility has limited space for

any type of protective, administrative or disciplinary custody. If this is needed for more than a short period of time, the staff will look at out of county placements.

When staff were questioned regarding the possibility of placing an inmate involuntarily in protective custody, staff indicated that it would only be in extenuating circumstances.

Policy is also clear that this is not a practice the facility should engage in unless there are exigent circumstances.

Huntingdon County Prison provides multiple opportunities/methods for inmates and staff to make a report regarding sexual abuse, sexual harassment, retaliation and/or staff neglect. Inmates and staff are very clear that inmates can come to any staff member to make a report and were able to discuss the staff who would be "better" to report to. Staff were clear that it is their responsibility to immediately report any allegation made to them through their chain of command to initiate the process at the facility.

Additionally, the inmates and/or staff members can call the reporting line listed on the posters hung throughout the facility. This line is answered by a third party, the PA Department of Corrections. This line is not anonymous, however. If an inmate calls this line, they must enter their PIN number to make the phone call.

Inmates can also submit written requests to talk with staff either on paper or on the kiosk through the email program.

The facility does not usually get individuals solely for civil immigration purposes. However, if they do, the facility has posted information regarding relevant consular services through the Department of Homeland Security.

The HCP has a discipline process in place for inmates who break the rules of the facility which includes incidents of sexual abuse. Sanctions for inmates violating agency policy vary depending upon the level of the violation.

Sanctions for these violations take into consideration many aspects of the inmate’s history and assessments conducted by the staff at the facility. This also includes the inmate’s mental health status.

The agency will not sanction inmates who have made an allegation in good faith, even if the investigation cannot substantiate the allegation.

#### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

As noted, prior in this report, the facility has part time medical services available and there is a contracted mental health professional that comes into the facility to provide services. The interview with the counselor indicated she tries to see every inmate within (3) days of their

arrival at the facility. The nurse will see all new receptions within (3) days of arrival at the facility.

Both were clear that if an inmate disclosed institutional sexual abuse, they are mandated to report this information to the staff of the facility for investigation and/or reporting to the appropriate facility.

One area which required corrective action was in regard to disclosures of sexual abuse that occurred outside of an institutional setting. Both medical and mental health staff are required to inform the inmate prior to asking any sexual victimization questions that they are required to report any institutional sexual abuse that is disclosed.

These staff members are also required to inform the inmate they are not able to report any sexual victimization that occurred outside of an institutional setting without the consent of the inmate.

This informed consent does not apply to anyone under the age of (18), although the facility does not house anyone under (18). If however, a juvenile was in the facility, awaiting transfer for example, and disclosed any sexual abuse, this must be reported immediately regardless of where the abuse occurred.

In order to come into compliance with this standard, the facility was required to revise the PREA policy to include this information. Additionally, the medical and mental health staff were to receive additional training on this revision.

The facility did develop additional paperwork for the consent to release information for sexual abuse experienced outside of a correctional setting. Additionally there was training information provided to the nurse and mental health provider regarding this revision as required.

Through interviews with staff and inmates, it clear that the medical staff do take allegations of sexual abuse seriously and if it occurs within the appropriate timeframe, will send inmates out to the hospital for a forensic medical examination.

The facility entered into a letter of agreement with Penn Highlands Huntingdon for the services of a SAFE nurse if any inmate ever needs the service.

The PREA policy indicates that this service will be provided without financial obligation to the inmate regardless of whether they agree to cooperate with the investigation.

Interviews with the medical and mental health staff at the facility indicated they felt that the medical treatment provided to the inmates at HCP is equal to the level of care individuals receive in the community, if not a little better. The medical department is able to see individuals on sick call usually within (24) hours of submitting a medical request slip.

The counselor is only at the facility on Mondays and Fridays. Therefore, she sees individuals as quickly as possible. All inmates are seen within (3) days of arrival at the facility. She will prioritize the requests that she gets each day when she comes into the facility.

If an inmate were to go out to the local hospital for a forensic medical examination, the nurse will provide any follow up services as directed by the medical doctor at the facility.

The PREA Coordinator is responsible for collecting all data related to sexual abuse and sexual harassment at the facility. This information was collected and the PREA Coordinator put it into a report for 2018.

As this is a small jail, the Bureau of Justice Statistics has not requested that the facility complete the SSV to date.

This standard requires that any contracted correctional facility statistics are included with the data for the facility. The facility keeps in close contact with those jails which there are contracts with.

The report contained a link to the Centre County and Mifflin County. York County Prison was missing from this list. Additionally, the statistics from each of these should be included in this report, not just the links to these facilities' websites.

In order for this standard to be in compliance, the staff was required to revise the statistical report and include that information in the PREA annual report referenced in standard 115.88.

This Auditor and the facility's PREA Coordinator discussed this statistical data and the corrective action for this standard. After further discussion, it was clear that all information gathered for data collection was included in the statistics although it was not clear. The Coordinator revised the report to provide clearer information on statistics for the facility and its contracted facilities.
